February 17th – Los Angeles Largest Climate Rally Yet!

“Solve the Climate Crisis! Take a Stand Mr. President!”

Make History – Stand in Solidarity with the largest climate demonstration yet!

On **Sunday, February 17th at 1pm** join Tar Sands Action Southern California, Sierra Club Beyond Coal Campaign, and Food and Water Watch, along with many other environmental/community organizations as we march in downtown Los Angeles to deliver a message - “Solve the Climate Crisis! Take a Stand Mr. President!”

We Stand in Solidarity: This demonstration is in solidarity with the Washington D.C. march happening the same day organized by 350.org, Sierra Club and Hip Hop Caucus. Thousands of Americans will head to Washington, D.C. to make “Forward on Climate” the largest climate rally in history. We encourage everyone to attend the D.C. rally (<http://act.350.org/signup/presidentsday>), but for those unable to make the journey you can still stand in solidarity and **make history right here in Los Angeles.**

Why March? Tell Barack Obama it’s time to lead in the fight against climate change, beginning with the Keystone XL tar sands pipeline. It is time for a Renewable Energy Future – one that doesn’t include dirty and dangerous fuels like Coal, Fracking, Tar Sands and Nuclear.

Details

When: Sunday, February 17th at 1pm

Starting Place: South-West Side of Paseo De La Plaza in Olvera Street. (Between North Los Angeles St. & Main St.)

Destination: City Hall Los Angeles - 200 North Spring Street, Los Angeles, CA (South Side Steps)

City Hall Events: Prayer for the Earth, songs, dance, speakers, and closing ceremony (details to come)

How to Support the Demonstration

Would your organization or business like to “Stand in Solidarity?” As a supporting organization your company name will be listed in our outreach material under the header “**We Stand in Solidarity.**” (See invite for example.) The outreach material includes the Facebook invite, WilderUtopia.com invite page, potentially the flyer, and a letter inviting elected officials to carry our message forward.

We ask that our supporting organizations/businesses encourage participation by sharing the rally via their email list serve and social media outlets. In order to attract over 1,000 demonstrators, we hope those organizations involved will confirm that 10 or more of their members will join the march.

We Can Do This, We Can Make a Difference: Just over a year ago, 15,000 people surrounded the White House -- and President Obama listened, delaying the Keystone XL tar sands pipeline. This is our best chance to show the President how strong this movement has become since then!
